Play soft music while you play — bansuri, veena, santoor, tanpura or bhajans, through speakers at a gentle volume. **Read clues, words and mantras aloud:** from about 19 weeks your baby hears your voice.

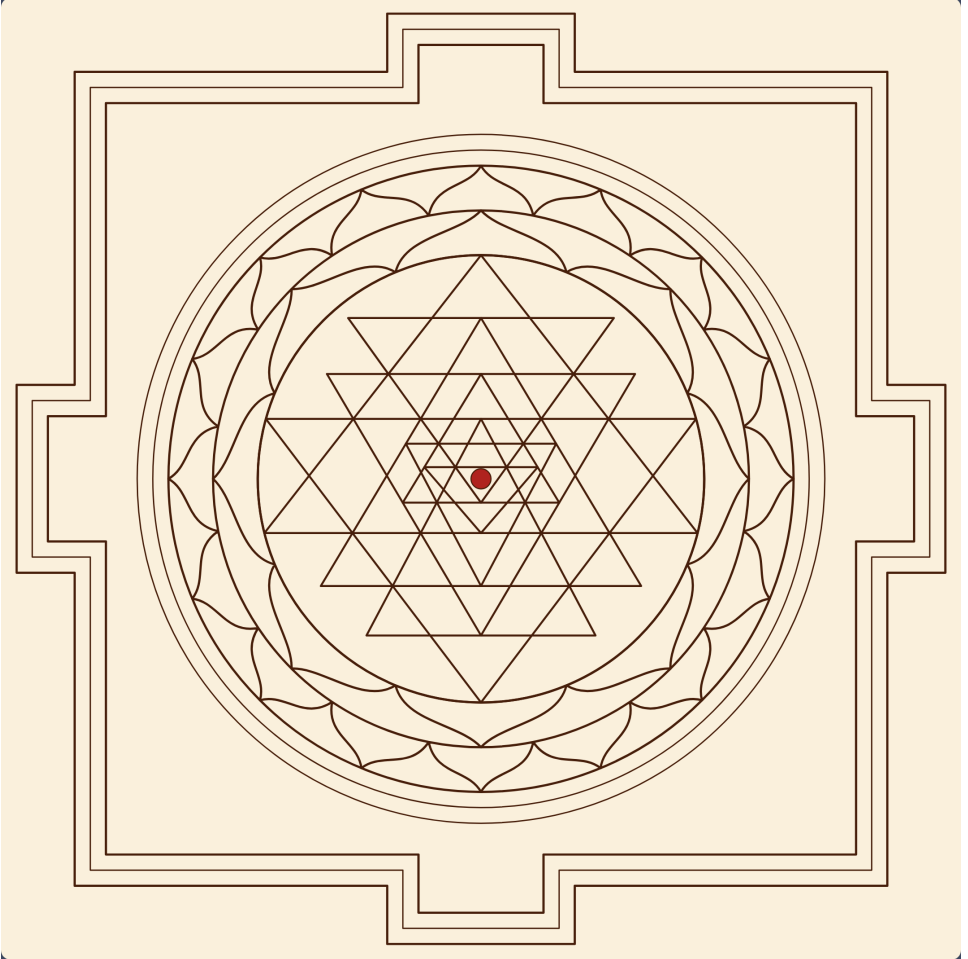

Why puzzles and colouring? They keep your mind active, focused and calm — and a calm, rested, well-nourished mother is the best environment for a growing brain. Tick a box each time; print a page again to repeat it.

Answers on pages 22–23 · For personal use · Stop any activity if you feel unwell, and see your doctor for anything unusual.
